

Too many wolves!

On a farm in Mercantour Park, a shepherd has 308 sheep and 14 goats.

But the wolves are hungry

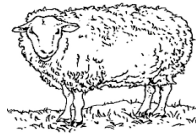

The grey wolf kills 2 sheep and 3 goats.

The black wolf kills four sheep.

The brown wolf kills 2 sheep and 2 goats.

The white wolf kills 3 goats 2 sheep.

They bring back this food to their pack.

- 1) How many wolves kill sheep and goats?
- 2) How many sheep and goats are left ?
- 3) Knowing that each wolf eats a quarter of sheep or goat, how many wolves are there in this pack?
